PROFILE

I design web and mobile interfaces, from user research to prototyping in Figma. I also leverage AI tools to accelerate design, animation, and prototyping.

SKILLS

PRODUCT DESIGN: User research · User interviews · UX benchmarking · User journeys · User flows · Wireframing · High-fidelity prototyping · User testing · Information architecture · UI design and design systems · Documentation · Accessibility (WCAG 2.3) · UI consistency · Understanding technical constraints · Functional specifications · Collaboration with engineering teams.

AI: Claude · Google Stitch · Lovable · Antigravity · AI-assisted prototyping · Motion · Analysis, debugging, and integration of AI-generated code.

DIGITAL DESIGN: Brand identity design · Print design · Advertising creatives · Photo retouching · Video editing.

TOOLS: Figma · Framer · HTML/CSS · Tailwind CSS · JavaScript · React · Adobe Creative Suite.

PROFESSIONAL EXPERIENCE

Product Designer · Digital studio · Avril 2025 – *Présent (CDI - Permanent)*

- Conduct UX research (user interviews, UX benchmarking, and user journey mapping) to identify user needs and prioritize features.
- Design end-to-end web and mobile experiences, from user research and wireframing to high-fidelity Figma prototypes.
- Leverage AI tools (Google Stitch, Claude, Lovable, and Antigravity) to accelerate design and prototyping, while analyzing, validating, and debugging AI-generated code.

UI Designer — Design System · Orange XDLab · Paris *2024 (6-month internship)*

- Improved and redesigned more than 60 poorly structured components to enhance usability, consistency, and scalability.
- Developed 10 comprehensive UI kits to accelerate design workflows and ensure cross-platform visual consistency.
- Led the complete refactoring of the Solaris Icon Library by cleaning component structures, fixing inconsistencies, removing duplicates, and improving metadata and categorization.
- Created an onboarding guide, documentation, and a dedicated Microsoft Teams channel for future interns and apprentices.
- Collaborated closely with the Product Owner and development teams to ensure design system consistency, component maintainability, and technical feasibility.

Motion Designer · Dolead · Paris*2023 (6-month internship)*

- Produced and iterated on digital content for performance-driven campaigns, continuously analyzing metrics and integrating feedback.
- Experimented with AI tools to generate creative videos and GIFs, improving production efficiency and exploring innovative content creation workflows.

Assistant Art Director · Deepee · Tunis*2020 – 2022 (CDI - Permanent)*

- Implemented visual assets for 2D animated videos using Adobe Illustrator and After Effects, including animations, visual effects, and transitions for pharmaceutical clients.
- Mentored junior designers, strengthening leadership and collaboration skills.
- Performed product and visual editing for the company database.

Visuel Designer · Pi-2R · Tunis *2019 – 2020 (CDI - Permanent)*
- Designed communication and marketing materials for international clients (Citroën, Evertek) across web, mobile, and social media platforms.
- Performed image editing and visual optimization for digital campaigns.

International Volunteer — Ligue de l'Enseignement 13 · Marseille 2018 – 2019 (6-month volunteer program)
- Worked as an Activity Leader, Photographer, and Designer on educational and community centers.
- Obtained the BAFA (French Youth Activity Leader Certification).

Project Manager Volunteer — Les Aventuriers · *Sfax- Tunisia 2016 – 2018* (CDI - *Permanent*)
- Led "Allons à Vélo", a sustainable mobility initiative supported by the French Institute of Tunisia (IFT).
- Coordinated events, managed partner relations, and monitored financial and narrative reports.
- Designed and produced all communication and promotional materials for the project.

Web Developer Intern — Delta Technologie · *Sfax- Tunisia 2015 (6-month internship)*
- Designed and developed a web application to facilitate the management and maintenance of surveillance cameras for technical teams and clients.

EDUCATION

Master's in Multimedia Interface and Internet Design *2022 – 2024*
Université Sorbonne Paris Nord (Paris 13), France

Bachelor's in Computer Science & Multimedia *2012 – 2015*
ISIMS, Tunisia

CERTIFICATIONS

- BAFA Certification
- Google UX Design Certificate
- Meta Front-End Developer — JavaScript & React
- ISTQB Foundation Level — product quality, UX ↔ QA collaboration
- Prompt Engineering for AI-assisted design workflows
- Agentic AI
- Software Testing Bootcamp — Udemy (In Progress, 2026)

Hobbies

- Volunteer with Ligue 13, BAFA-qualified children activity
- Travel Across Europe
